

Dear friends,

My husband and I have a small publishing house in Kyiv which has issued many books about Ukraine and its capital over the past 12 years. You know that our country is going through a difficult time right now.

Alas, we can no longer publish paper books, so we have decided to distribute them FOR FREE in electronic form. Please download the books Interesting Ukraine, Interesting Kyiv and Interesting Chernobyl as PDF files [here](#).

Why did we post these books for free instead of selling them? Today we really need the recognition of Ukraine as a full-fledged civilised European state. I hope that after reading (or just looking through) these books, you will be convinced that Ukraine is a strong, beautiful state, with its own interesting history, worthy of being a member of the EU.

If you like this book, please donate whatever amount you deem possible. Thank you in advance for appreciating our work and allowing us to continue our favourite job!
